

Consulting

Today's workplace is often a collaborative environment that provides the most value from the space, attracts and retains great talent, and reflects the aspirations of the organization. As consultants, SBI will help your organization rethink your facilities, enhance the employee and customer experience, boost productivity and modernize the way you work.

We use the most current, cutting-edge research available to revitalize and re-image your workspace. Beginning with a comprehensive survey, we will uncover inefficiencies, obstacles and hindrances to create an environment to enhance your employee's performance. We will consider the complete picture, including your company's use of technology, workflow, privacy issues, collaboration styles, storage as well as ergonomics and any factors unique to the way you do business.

- Balance privacy and interaction
- Manage connections between people
- Support technology
- Maximize storage
- Gain insight into how people work
