

Walkstation

The Walkstation is the combination of a fully integrated electric height-adjustable worksurface with an exclusively engineered, low speed commercial

grade treadmill. At a **maximum speed of 2.0 mph** the Walkstation – the first product in the FitWork™ category of products from Details – lets you walk comfortably, burn calories, feel healthier and more energized... all while accomplishing the work you would normally do while seated.

No sweat!

The Walkstation is designed to bring healthy habits to sedentary workers while they are actually working.

- Display console shows speed, calories burned, time and distance
- Console may be visible or stored
- 2.0 mph maximum motor
- High torque motor to withstand the rigors of slow speeds and possible higher weights for long periods of time
- Whisper quiet for the office environment
- Uses 3-8 amps depending on walking speed
- Height adjustment on the treadmill key pad
- Worksurface proportioned for limited reach
- Urethane High Profile edge spans entire front edge
